Company Overview

SNC ENTERPRISES (Private) Limited is a registered private limited company in Pakistan under the Companies Act, 2017, recognized by the Securities and Exchange Commission of Pakistan (SECP). Established with a strong vision to provide comprehensive consultancy, insurance, inspection, and management services,

SNC Enterprises brings together a wide range of professional expertise under one platform. We specialize in insurance-related services, including Muccadam operations, stock inspection, valuation & appraisal reporting, and risk assessment consultancy — ensuring transparency, accuracy, and reliability for every client.

SNC Enterprises is a multi-disciplinary service organization, proudly serving banks, insurance companies, government departments, donor agencies, NGOs, international institutions, and private firms.

Alongside our core insurance and inspection services, the company also offers strategic consultancy, project management, disaster environment management, material and facility operations, import-export, event management, and entertainment development projects. With a dedicated team of experienced professionals, technical experts, and field inspectors, SNC Enterprises ensures every

The Foundation & Success of Our Business:

The success of SNC ENTERPRISES (Private) Limited is built upon a strong foundation of professional integrity, technical expertise, and client confidence. Since its establishment, the company has remained committed to delivering reliable, transparent, and high-quality services across Pakistan.

Our reputation stands on three essential pillars — Knowledge, Reliability, and Performance. These values guide our work in every area, from insurance inspections and valuations to consultancy, project management, and operational services.

The main attraction of our business lies in our multi-dimensional service capability and client-centered approach. We have earned trust across sectors by providing accurate and timely Muccadam services, stock inspections, valuation & appraisal reports, and insurance consultancy, tailored to meet each client's needs.

We take pride in building long-term partnerships with banks, insurance companies, NGOs, and private organizations through our consistent commitment to quality, accountability, and performance excellence.

Our team of experienced professionals, field experts, and consultants continuously innovates, ensuring that every assignment meets national and international standards.

"Our success is not built on what we do once — it's built on what we deliver consistently, with honesty, dedication, and purpose."

SNC ENTERPRISES (Private) Limited

VISSION

To be a leading multi-disciplinary service organization in Pakistan, recognized for its excellence, integrity, and innovation in providing insurance, inspection, valuation, consultancy, and management services that help institutions operate with transparency, efficiency, and confidence.

"We aim to set new standards of trust and professionalism in every sector we serve."

MISSION

Our mission is to deliver reliable, accurate, and transparent professional services that create value for our clients, strengthen institutions, and contribute to Pakistan's economic growth.

We strive to:

Provide specialized insurance support through accurate inspection, valuation, and Muccadam services.

Offer consultancy and management solutions that enhance institutional performance and capacity.

Ensure transparency and quality in all operational and inspection-based services.

Respond effectively to challenges through innovation, discipline, and commitment.

Build long-term relationships based on mutual trust, integrity, and satisfaction.

"We don't just serve clients — we build partnerships based on performance and trust."

CORE VALUES

Integrity: We uphold honesty and ethical conduct in all dealings, ensuring our clients' full trust and confidence.

Professionalism: We perform every task with discipline, accuracy, and dedication to industry standards.

Transparency: We ensure every report, inspection, and consultancy process is clear, well-documented, and verifiable.

Quality: We are committed to delivering reliable and precise services with measurable results.

Innovation: We continuously upgrade our systems, processes, and skills to stay ahead of client expectations.

Accountability: We take ownership of every assignment and ensure complete compliance with legal and professional standards.

Teamwork: We believe collective effort, respect, and collaboration create the best outcomes.

Commitment to Nation: We serve with pride and responsibility, contributing to Pakistan's development through excellence and ethical practice.

Company Policy

M/s SNC Enterprises (Pvt.) Ltd., established on 16-09-2025, provides professional Muccadam, Stock Inspection, Valuation, and Consultancy services to banks, financial institutions, insurers, and corporate clients across Pakistan. We operate with integrity, precision, and client-focused professionalism, following defined Standard Operating Procedures (SOPs).

Policy Objectives:

- Ensure ethical, transparent, and professional operations.
- Maintain consistent service quality.
- Protect client assets and interests.
- Provide accurate, timely, and verified reporting.
- Promote a safe and efficient work environment.

Organizational Framework:

- Field Staff / Godown Keeper: On-site monitoring & stock logging.
- Stock Inspector / Supervisor: Verification & compliance checks.
- Branch/Regional Manager: Site audits, client liaison, and reporting.
- Head Office Operations: Oversight, documentation, and coordination.

Service Areas & Procedures:

- Muccadam & Stock Inspection: Verified staff, 24/7 supervision, daily logs, regular audits, discrepancy reporting, and secure storage.
- Valuation & Insurance Services: Professional appraisal, risk assessment, compliance with industry guidelines, and secure reporting.
- Consultancy & Management: Project-based approach with TORs, dedicated teams, and secure client data handling.
- Disaster & Environmental Management: Risk assessments, ERPs, DRR programs, and environmental audits.
- Operational & Facility Management: Facility operation plans, hygiene, safety, and logistics management.
- Import & Export: Compliance with customs, FBR, TDAP; documentation and quality verification.
- Event & Entertainment Projects: Feasibility, planning, safety compliance, rides & FEC management, HSE adherence.

Quality Control & Continuous Improvement:

- Senior verification of reports, surprise audits, staff training, and client feedback evaluation.
- SOP updates, internal efficiency reviews, and ongoing skill development.

Company Commitment:

SNC Enterprises (Pvt.) Ltd. is dedicated to safeguarding client interests, ensuring integrity, accuracy, confidentiality, and delivering professional, timely, and compliant services.

"Our strength lies in integrity, expertise, and unwavering commitment to client satisfaction."

A

Insurance & Financial Support Services

01. Muccadam Services

SNC ENTERPRISES (Private) Limited provides specialized Muccadam services to banks, financial institutions, and insurance companies across Pakistan.

Our role as Muccadam (Custodian) is to safeguard, monitor, and report pledged goods or stocks that are held as security against financing facilities provided by banks.

We ensure the safe custody, physical verification, and accurate reporting of all pledged commodities, maintaining complete transparency and compliance with bank-approved Standard Operating Procedures (SOPs).

Our Muccadam operations include:

Appointment of trained Godown Keepers under legal undertakings to safeguard pledged stocks.

Round-the-clock supervision (24/7) of all godowns and warehouses.

Daily reporting to concerned banks regarding stock movement, balances, and condition.

Coordination with Branch Managers and Stock Inspectors for verification during stock pledging and release.

Maintenance of accurate stock registers, quality control, and record documentation.

Quick response teams for emergency site visits, risk assessment, and verification.

We uphold the highest integrity in our custodial services, ensuring that the bank's interest is fully secured and that all pledged goods are monitored under strict professional control.

02. Stock Inspection Services

Our Stock Inspection Department specializes in field inspections, quantity verification, and quality assessment of pledged and non-pledged stocks on behalf of banks, insurance companies, and financial institutions.

We perform regular, surprise, and special inspections to ensure that the financed goods are physically available, in sound condition, and in accordance with the terms of the pledge agreement.

Inspection activities include:

Physical verification of stocks with respect to quantity, quality, and packing.

Cross-checking pledge memos, stock registers, and bank documents for reconciliation.

Preparation of inspection reports with photographic evidence and expert observations.

Monitoring of stock movement — including inward and outward goods.

Immediate reporting to banks in case of any discrepancies, damages, or risks.

Ensuring compliance with bank policies and risk management protocols.

Our inspection teams comprise qualified field officers, surveyors, and commodity specialists, equipped with modern tools and updated market knowledge to deliver accurate and reliable reports.

Commodity Handling Expertise

The Management of SNC Enterprises (Private) Limited has extensive experience in handling a wide range of industrial, agricultural, and consumer commodities under its Muccadam and Stock Inspection operations.

We have worked with leading banks and clients for the custody, inspection, and valuation of the following commodities:

- Beverages
- Canola Seeds
- Chemicals and Dyes
- Cosmetic Items
- Cotton Bales
- Cotton Phutti (Raw Cotton)
- Electronic Items
- Flour and Related Items
- Food Items
- Hides and Skins
- Iron Products
- Oil Seeds
- Pesticides
- Petroleum Products
- Plastic Molding Compound (PMC)
- Polyester Bales and Viscose Bales
- Rapeseeds
- Raw Materials
- Rice and Paddy
- Seed Cake
- Silk and Grey Cloth (Fabric)
- Steel Products
- Sugar
- Sunflower Seeds
- Viscose
- Wheat
- Yarn
- Molasses / Ethanol
- Fabrics & Garments
- Foodstuffs
- Imported Machinery

Our team also manages inspection and verification of import-related goods, machinery, and documentation, ensuring full compliance with customs and trade regulations.

With vast experience across such a diverse portfolio of commodities, SNC Enterprises has become a trusted partner for banks, insurance companies, and industrial clients, ensuring precision, transparency, and accountability in every project.

03. Valuation & Appraisal Services

SNC Enterprises (Private) Limited provides comprehensive and professional Valuation & Appraisal Services to banks, insurance companies, government organizations, and private clients. Our valuation experts deliver accurate, unbiased, and evidence-based assessments of asset value, ensuring compliance with industry standards, financial regulations, and client requirements.

We specialize in valuation and appraisal of the following categories:

Land and Building Valuation

We conduct detailed valuation of residential, commercial, industrial, and agricultural properties.

Our assessment includes:

Physical site inspection and location analysis.

Verification of ownership and legal documentation.

Evaluation of construction quality, age, and condition of buildings.

Market-based comparative analysis of property values.

Determination of current market value, forced sale value, and insurance value.

All property valuations are carried out according to Pakistan Banks Association (PBA) and International Valuation Standards (IVS).

a. Machinery & Equipment Valuation

Our experts provide professional valuation of industrial plants, production machinery, and specialized equipment for financing, insurance, or audit purposes.

Services include:

Identification and technical inspection of machinery.

Assessment of operational efficiency, depreciation, and market demand.

Evaluation of replacement cost and residual value.

Preparation of detailed valuation reports with technical specifications and photographs.

We cover all major industrial sectors — including textile, sugar, cement, food, pharmaceutical, and engineering industries.

b. Vehicle Valuation

We perform valuation of commercial, industrial, and private vehicles, including heavy transport, construction machinery, and fleet assets.

Our process includes:

Verification of registration, engine, and chassis numbers.

Physical inspection of body condition, mileage, and functionality.

Market price comparison based on model, make, and condition.

Preparation of certified valuation reports acceptable to banks, insurance firms, and leasing companies.

c. Stock & Commodity Valuation

We also specialize in valuation of stock-in-trade and pledged commodities for banks, insurance companies, and corporate clients.

Our services cover:

Physical verification of stock quantity and condition.

Market rate analysis and comparison with historical data.

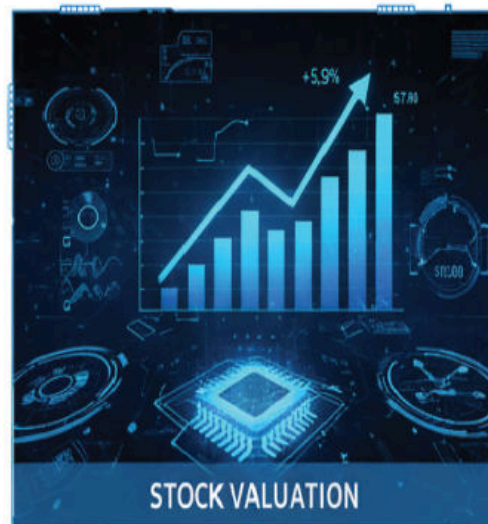

Evaluation of storage conditions, expiry risks, and depreciation.

Preparation of certified valuation and appraisal reports for credit, audit, or insurance purposes.

We have extensive experience in valuing a wide range of commodities such as sugar, wheat, rice, cotton, oil seeds, fertilizers, chemicals, and other industrial and consumer goods.

Commitment to Accuracy & Transparency

All valuations are conducted by qualified professionals and technical consultants with years of industry experience. We ensure that every valuation report issued by SNC Enterprises (Pvt.) Ltd. is: Authentic, traceable, and professionally documented. In line with financial institution requirements. Acceptable to regulatory and audit authorities. Our goal is to provide clients with reliable, defensible, and value-driven assessments to support financial decisions, credit approvals, insurance claims,

04. Insurance Consultancy Services

SNC Enterprises (Private) Limited offers specialized Insurance Consultancy Services designed to assist financial institutions, corporate clients, and individuals in managing risk, ensuring compliance, and optimizing insurance coverage. Our expert team provides technical, analytical, and documentation support across all major areas of insurance operations — from underwriting and risk assessment to claims management and policy advisory.

a. Underwriting Assistance

We provide technical guidance and professional input during the underwriting process to help insurers and clients evaluate risks accurately and determine appropriate coverage levels.

Our underwriting support includes:

Risk analysis and classification based on asset, location, and exposure.

Review of insurance applications and supporting documents.

Recommendations for coverage type, limits, and premium structure.

Coordination between insurer and client to ensure accurate policy issuance.

b. Claims Verification & Loss Assessment

Our team conducts independent claims verification and loss assessment to ensure transparency and fairness in the settlement process.

Services include:

On-site inspection of insured assets or damaged goods.

Evaluation of cause, extent, and estimated financial loss.

Preparation of detailed verification reports supported with photographic and technical evidence.

Coordination with insurance companies and clients for claim processing.

We provide reports acceptable to insurance companies, financial institutions, and audit authorities.

c. Policy Advisory & Risk Management

We offer professional advice for selecting the most suitable insurance policies for assets, operations, and personnel.

Our experts assist clients in:

Identifying potential risk exposures.

Structuring insurance programs (Fire, Marine, Engineering, Property, and Motor).

Reviewing and renewing existing policies to ensure optimal coverage and cost efficiency.

Developing risk mitigation and contingency plans to minimize potential losses.

d. Documentation & Compliance Support

We assist clients with all formalities and paperwork related to insurance coverage, renewals, and claims.

Our services include:

Preparation and review of insurance documents.

Coordination with insurers, surveyors, and regulatory authorities.

Ensuring compliance with SECP, State Bank of Pakistan, and other regulatory frameworks.

e. Commitment to Transparency & Professional Integrity

SNC Enterprises (Pvt.) Ltd. is committed to maintaining confidentiality, accuracy, and professional ethics in all insurance consultancy engagements.

Our objective is to build long-term trust by providing independent, evidence-based, and result-oriented consultancy services that protect client interests and ensure compliance with all legal and procedural standards.

B

Consultancy & Management Services

01. Strategic Planning & Project Management

SNC Enterprises (Private) Limited provides comprehensive Strategic Planning and Project Management Services to help organizations develop, implement, and achieve their business objectives effectively and efficiently.

Our experienced consultants design structured strategies, operational frameworks, and project execution models that align with the client's mission, financial goals, and long-term sustainability.

a. Strategic Planning

We assist organizations in formulating and executing strategic business plans through systematic analysis, forecasting, and performance evaluation.

Our strategic planning services include:

Vision & Mission Development: Assisting clients in defining clear organizational direction and strategic goals.

Market Analysis & Feasibility Studies: Conducting in-depth assessments of market trends, competition, and financial viability.

Policy & Procedure Formulation: Designing internal policies, operational procedures, and governance frameworks.

Business Process Optimization: Identifying inefficiencies and recommending improvements for sustainable growth.

Performance Monitoring: Setting measurable Key Performance Indicators (KPIs) and evaluation systems for consistent results.

Our goal is to ensure that each client's strategic vision is actionable, measurable, and achievable, with proper mechanisms in place for continuous improvement.

b. Project Management

We offer end-to-end Project Management Services that cover the full project lifecycle — from initiation and planning to execution, monitoring, and closure.

Our professional approach ensures that projects are completed on time, within budget, and to the required quality standards.

Project management services include:

Project Feasibility & Scope Definition: Conducting detailed project analysis and defining objectives, deliverables, and risk factors.

Resource Planning & Budgeting: Allocation of human, financial, and material resources for optimal utilization.

Scheduling & Implementation: Developing detailed work plans, timelines, and progress tracking mechanisms.

Quality Control & Risk Mitigation: Continuous evaluation to identify potential risks and implement corrective measures.

Reporting & Communication Management: Providing timely updates, documentation, and communication between all stakeholders.

c. Sectoral Expertise

SNC Enterprises has successfully developed and managed projects across multiple sectors including:

Financial Institutions & Banking Operations
Industrial Development & Manufacturing
Public Infrastructure & Environmental Projects
Facility & Asset Management
Import/Export & Supply Chain Solutions
IT, Media, and Entertainment Projects

SECTORAL EXPERTISE

d. Commitment to Excellence

Our Strategic Planning and Project Management team is composed of experienced professionals who combine analytical insight, practical experience, and industry best practices to ensure successful project outcomes. We aim to deliver innovative, cost-effective, and sustainable solutions that enhance organizational efficiency, strengthen governance, and promote long-term growth.

Institutional Development & Capacity Building

SNC Enterprises (Private) Limited provides specialized services in Institutional Development and Capacity Building, aimed at strengthening organizational systems, enhancing human resource capabilities, and improving overall institutional performance.

Our focus is on creating sustainable structures, policies, and processes that enable both public and private sector organizations to operate with greater efficiency, transparency, and accountability.

COMMITMENT TO EXCELLENCE

02. Institutional Development

Institutional Development involves designing and implementing frameworks that enhance the operational and administrative efficiency of organizations.

Our experienced consultants conduct detailed assessments and develop customized solutions aligned with each organization's mission and strategic objectives.

Key components include:

Organizational Assessment: Evaluating existing systems, processes, and governance structures to identify strengths and weaknesses.

Policy & System Design: Formulating and standardizing operational, financial, and administrative procedures for improved performance.

Organizational Restructuring: Developing efficient hierarchies and reporting systems to ensure clarity in roles and responsibilities.

Performance Management Systems: Establishing monitoring and evaluation mechanisms to measure institutional progress.

Good Governance & Compliance: Assisting organizations in adopting best governance practices, regulatory compliance, and internal controls.

Through these initiatives, SNC Enterprises helps institutions achieve long-term organizational stability and operational excellence.

INSTITUTIONAL DEVELOPMENT

Capacity Building

Capacity Building is a core component of sustainable institutional growth.

We design and deliver tailored training programs, skill enhancement workshops, and knowledge-sharing initiatives to strengthen the professional and technical competencies of personnel at all levels.

Our services include:

Training Needs Assessment (TNA): Identifying specific knowledge and skill gaps within the workforce.

Customized Training Programs: Developing and delivering training sessions in management, finance, operations, and technical domains.

Leadership & Management Development: Coaching and mentoring for senior and middle management to enhance decision-making and leadership capabilities.

Technical Skill Development: Providing hands-on training for field staff, supervisors, and technical professionals.

Continuous Learning Systems: Establishing institutional learning frameworks and internal training mechanisms for ongoing development.

Outcomes & Impact

The ultimate goal of our Institutional Development & Capacity Building program is to create self-sustaining, competent, and result-oriented organizations.

Our interventions result in:

Improved organizational performance and efficiency.

Strengthened internal controls and accountability.

Empowered and skilled human resources.

Enhanced service delivery and stakeholder confidence.

CAPACITY BUILDING

03. Business Operations & Risk Management Consultancy

SNC Enterprises (Private) Limited

SNC Enterprises specializes in Business Operations and Risk Management Consultancy, helping organizations improve efficiency, enhance controls, and manage financial, operational, and strategic risks.

a. Business Operations Consultancy

We streamline workflows, optimize resources, and align operations with strategic goals.

Our key services include:

- Operational Assessment & Process Mapping
- Workflow Optimization & SOP Development
- KPI Design & Performance Monitoring
- Financial Operations Analysis
- Technology & ERP Integration

These services drive cost reduction, productivity improvement, and enhanced service delivery.

b. Risk Management Consultancy

We protect businesses by identifying risks and developing robust mitigation strategies.

Our offerings include:

- Risk Identification & Assessment
- Risk Mitigation & Compliance Advisory
- Crisis & Business Continuity Planning
- Insurance Risk Alignment

We help clients ensure business continuity, regulatory compliance, and long-term resilience.

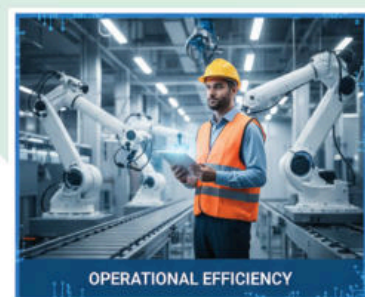

Our Impact

Clients benefit from:

- Streamlined operations and better performance
- Reduced financial and operational risks
- Stronger governance and regulatory compliance
- Improved organizational resilience

Our Commitment

At SNC Enterprises, we combine business insight with practical solutions to help clients operate smarter, safer, and more sustainably. Our experienced consultants deliver tailored strategies that support lasting success.

4. SECP Services – New Company Registration & Regulatory Compliance

At SNC Enterprises (Pvt.) Limited, we specialize in providing end-to-end professional services related to the Securities and Exchange Commission of Pakistan (SECP), with a strong focus on new company registration and ongoing corporate compliance. Our goal is to assist entrepreneurs, startups, SMEs, and established businesses in navigating the regulatory landscape with ease, accuracy, and confidence.

Our new company registration services cover the entire incorporation process for a variety of legal structures, including Private Limited Companies, Single Member Companies (SMCs), Public Limited Companies, Limited Liability Partnerships (LLPs), and Non-Profit Organizations (under Section 42 of the Companies Act 2017). From name reservation and acquiring digital signatures to the preparation and submission of incorporation documents, our expert consultants ensure a fast, smooth, and fully compliant registration process.

In addition to incorporation, we offer a wide range of post-registration SECP services, including:

- Filing of annual returns and statutory compliance forms
- Changes in company structure, such as directors, shareholders, or registered address
- Increase or reduction of authorized share capital
- Share transfers and issuance of share certificates
- Drafting of board resolutions and legal documentation
- Company winding-up or dissolution support

Our team stays consistently up to date with SECP rules, guidelines, and digital platform changes (such as eServices and SECP portals), ensuring that our clients receive reliable, efficient, and legally sound services.

Whether you're launching a new business or need support with ongoing compliance requirements, SNC Enterprises (Pvt.) Limited is your trusted partner for SECP-related services across Pakistan. We are committed to delivering professional, transparent, and cost-effective solutions tailored to your specific business needs.

SNC Enterprises (Private) Limited provides specialized Disaster and Environmental Management Services designed to help organizations anticipate, prepare for, and effectively respond to emergencies and environmental challenges.

Our services focus on ensuring business continuity, protecting assets, minimizing environmental impact, and maintaining compliance with local and international safety standards.

With a team of environmental specialists, safety engineers, and risk management experts, SNC Enterprises delivers integrated disaster preparedness and sustainability solutions to safeguard people, property, and performance.

1. Emergency Response Planning

Preparedness is the cornerstone of resilience. SNC Enterprises helps organizations develop comprehensive Emergency Response Plans (ERP) that ensure rapid, coordinated, and effective action during crises.

Key elements include:

Risk & Hazard Identification: Assessment of potential threats such as fire, flood, earthquake, chemical spills, or industrial accidents.

Crisis Response Framework: Establishing command structures, communication lines, and emergency procedures for timely decision-making.

Evacuation & Rescue Protocols: Development of site-specific evacuation plans, safety drills, and first-aid readiness.

Coordination with Authorities: Integration of local government and emergency services for seamless response operations.

Training & Simulation: Conducting mock drills, awareness sessions, and capability-building exercises for staff preparedness.

Our ERP solutions empower organizations to act decisively and minimize losses, ensuring the safety of employees and assets.

2. Disaster Risk Reduction (DRR)

SNC Enterprises promotes Disaster Risk Reduction (DRR) as a proactive approach to managing natural and man-made hazards. We work closely with public institutions, donor agencies, and private sector organizations to strengthen resilience and minimize vulnerability.

Our DRR services include:

Risk Mapping & Vulnerability Assessment: Identifying and prioritizing critical risks in facilities, supply chains, and communities.

Mitigation Planning: Designing preventive measures, structural reinforcements, and contingency systems.

Community & Organizational Awareness Programs: Conducting workshops and training to promote disaster resilience and adaptive capacity.

Post-Disaster Recovery Support: Providing assessment, coordination, and rehabilitation planning after an incident.

Through DRR initiatives, we help our clients transform risk into resilience, aligning with global frameworks such as the Sendai Framework for Disaster Risk Reduction.

DISASTER & ENVIRONMENTAL MANAGEMENT

EMERGENCY RESPONSE PLANNING

DISASTER REDUCTION (DDR)

DISASTER & ENVIRONMENTAL MANAGEMENT

3. Environmental Safety & Compliance Audits

Environmental protection is a critical responsibility for sustainable business operations. SNC Enterprises offers professional Environmental Safety and Compliance Audit Services that ensure adherence to regulatory standards and environmental best practices.

We assist clients in:

Environmental Auditing & Impact Assessment (EIA): Evaluating operations, processes, and projects for compliance with environmental laws.

Waste Management & Pollution Control: Designing strategies to manage solid, liquid, and gaseous waste responsibly.

Health, Safety & Environment (HSE) Audits: Comprehensive inspection of workplace safety systems and compliance documentation.

Sustainability & ESG (Environmental, Social, and Governance) Advisory: Assisting organizations in adopting sustainable operational models.

Green Certification Support: Helping clients meet ISO 14001 and other international environmental management standards.

These services ensure that our clients operate responsibly, maintain compliance, and contribute to environmental sustainability.

Outcomes & Impact

Through our Disaster & Environmental Management expertise, SNC Enterprises enables clients to:

Ensure organizational readiness and continuity under all conditions.

Protect employees, facilities, and investments from potential hazards.

Strengthen safety culture and regulatory compliance.

Reduce environmental footprint and achieve sustainability goals.

Build a resilient organization capable of responding to change and uncertainty.

Commitment

SNC Enterprises is committed to promoting a culture of safety, sustainability, and preparedness.

Our multidisciplinary team combines technical knowledge with field experience to design systems that not only respond to disasters but also prevent them through foresight and planning.

We believe that responsible environmental management and disaster resilience are key foundations of a sustainable business future.

D

Operational & Facility Management

SNC Enterprises (Private) Limited offers comprehensive Operational and Facility Management services designed to enhance workplace efficiency, safety, and hygiene across commercial, industrial, and institutional environments.

Our objective is to help clients maintain optimal operations by providing end-to-end facility management solutions that combine professional supervision, skilled manpower, and modern tools.

With years of experience managing diverse facilities — from warehouses and production sites to offices and public institutions — SNC Enterprises ensures smooth operations, cost-effectiveness, and superior quality standards.

Janitorial, Fumigation & Sanitation Services

SNC Enterprises (Private) Limited provides professional Janitorial, Fumigation, and Sanitation Services tailored to meet the hygiene, safety, and cleanliness requirements of commercial, industrial, and institutional facilities.

We understand that a clean and hygienic environment directly contributes to the productivity, health, and reputation of any organization. Our cleaning and sanitation operations are managed by experienced supervisors and trained personnel who ensure that every task meets international hygiene standards and client-specific requirements.

1. Janitorial Services

Our Janitorial Division offers complete cleaning and maintenance solutions for offices, warehouses, industrial areas, hospitals, educational institutions, and public facilities.

Key Features:

Daily sweeping, mopping, dusting, and vacuuming of all work areas.

Deep cleaning of floors, carpets, walls, and ceilings using eco-friendly cleaning materials.

Cleaning and sanitization of washrooms, kitchens, and common areas.

Waste collection, segregation, and disposal as per environmental regulations.

Supply and maintenance of cleaning consumables (tissue rolls, detergents, bins, etc.).

Deployment of uniformed janitorial staff with supervision and performance monitoring.

Our janitorial services are designed to maintain continuous cleanliness and hygiene while minimizing disruption to daily business operations.

2. Fumigation & Pest Control Services

SNC Enterprises offers Fumigation and Pest Control services to protect facilities, warehouses, and goods from pests, rodents, and insects that can damage property and affect product quality.

Key Features:

Use of certified and government-approved chemicals that are safe for humans and the environment.

Regular fumigation schedules for warehouses, mills, offices, and residential facilities.

Specialized treatment for insects, termites, rodents, and stored product pests.

Monitoring and inspection after treatment to ensure long-term effectiveness.

Emergency pest control response for infestations or contamination issues.

Our fumigation services are particularly vital for food, stock, and commodity warehouses, ensuring goods remain pest-free and compliant with bank, insurance, and export inspection standards.

3. Sanitation & Disinfection Services

We provide comprehensive sanitation and disinfection solutions to ensure a healthy and germ-free environment.

This service has become especially critical in light of modern health and safety requirements across all sectors.

Key Features:

Regular disinfection of high-contact areas such as doors, counters, and restrooms.

Use of hospital-grade disinfectants to eliminate bacteria and viruses.

Air purification and odor control for enclosed spaces.

Deep cleaning of industrial and food processing zones to maintain hygiene certification standards.

Compliance with health safety regulations (Pakistan Environmental Protection Agency and ISO standards).

Our sanitation team operates 24/7 on rotational shifts to ensure uninterrupted hygiene maintenance and immediate response to client needs.

4. Quality Assurance & Monitoring

To maintain service excellence, SNC Enterprises implements a comprehensive monitoring and inspection system:

Supervisory audits are conducted daily and weekly.

Service reports are shared with clients for transparency.

Staff training and refresher sessions are held regularly.

Use of digital checklists and performance tracking tools.

All operations are carried out under strict Health, Safety, and Environmental (HSE) compliance to ensure sustainable and effective cleaning standards.

5. Our Edge

What makes SNC Enterprises stand out is our commitment to quality, reliability, and responsiveness.

We provide all cleaning and fumigation equipment, ensure punctual service delivery, and customize our operations according to each client's schedule and facility layout.

Our team's professional conduct and attention to detail ensure that clients experience a safe, clean, and healthy environment every day.

In summary:

"SNC Enterprises ensures that every facility we maintain reflects cleanliness, safety, and professionalism — creating an environment that supports productivity, comfort, and trust."

6. Canteen & Cafeteria Management Services

SNC Enterprises (Private) Limited provides professional Canteen and Cafeteria Management Services tailored to meet the daily food service needs of corporate offices, industrial units, educational institutions, and public facilities. Our goal is to offer nutritious, hygienic, and affordable meals while ensuring high standards of cleanliness, food safety, and operational efficiency.

We manage the entire process — from kitchen setup and infrastructure to the provision of trained staff, including chefs, servers, and supervisors. All food is prepared using fresh ingredients in compliance with HACCP and local health regulations, with routine inspections, food sampling, and kitchen hygiene audits conducted to maintain safety and quality.

Our services include:

- Daily meal preparation and service
- Strict hygiene protocols and staff health checks
- Portion control and cost-effective meal planning
- Dining area management and cleaning
- Regular feedback collection and menu updates

With a focus on quality, consistency, and customer satisfaction, SNC Enterprises ensures that every meal served promotes employee well-being, workplace morale, and a clean, comfortable dining environment.

7. Material Management & Logistics Services

SNC Enterprises (Private) Limited offers integrated Material Management and Logistics Solutions designed to streamline the movement, storage, and control of goods across the entire supply chain. Our focus is on enhancing operational efficiency, reducing costs, and ensuring accuracy — from procurement to final delivery.

With tailored services for industries such as manufacturing, banking, retail, energy, agriculture, and construction, we provide end-to-end support that includes:

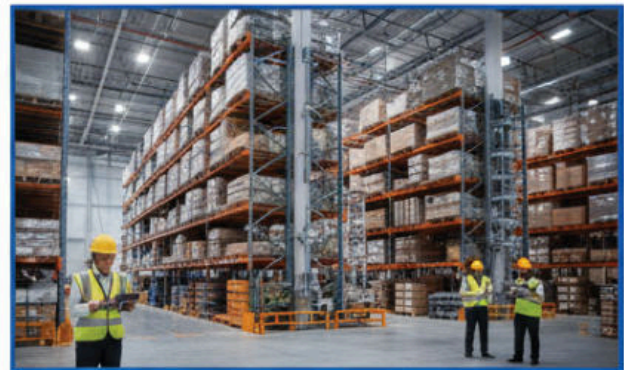

- Strategic sourcing and procurement
- Inventory control and digital warehouse management
- Intra-city and inter-city transportation with GPS tracking
- Import/export handling and customs documentation
- Packaging, labeling, and dispatch coordination
- Supply chain planning and vendor coordination

Our warehousing solutions ensure secure, climate-controlled storage with real-time stock tracking and audit-ready documentation. We follow industry-standard practices such as FIFO/LIFO, supported by barcoding systems and 24/7 surveillance for full transparency and traceability. SNC Enterprises also employs modern logistics technologies for inventory forecasting, delivery alerts, and electronic recordkeeping, enabling clients to monitor their supply chain with precision and confidence.

With a strong commitment to quality control, regulatory compliance, and customer satisfaction, we ensure every consignment is handled professionally, safely, and on time — making logistics a dependable asset, not a challenge.

3. Games, Rides & Indoor Recreational Facilities

SNC Enterprises (Private) Limited delivers end-to-end management of amusement rides, arcade games, and indoor recreational facilities, ensuring safe, engaging, and seamless entertainment experiences for visitors of all ages.

Our Core Services Include:

- Ride Operations & Safety – Supervision and compliance with international amusement safety standards
- Arcade & Interactive Games – Installation, operation, and maintenance of arcade and redemption games
- Indoor Recreation Zones – VR/AR setups, kids' play areas, and indoor sports activities
- Preventive Maintenance – Routine checks and timely repairs to ensure safety and uptime
- Customer Experience Management – Trained staff for supervision, guest support, and crowd handling
- Staff Training & Development – Ongoing training in safety, service, and emergency protocols

We prioritize safety, operational excellence, and visitor satisfaction, delivering recreational environments that are fun, family-friendly, and professionally managed.

INTERACTIVE & VR EXPERIENCES

SNC Enterprises (Pvt.) Ltd ensures service excellence through a strong framework of Quality Control, Training & Development, Performance Audits, and a proactive Client Feedback Mechanism. Our goal is to maintain the highest operational standards while continuously improving across all sectors.

1. Quality Control & Continuous Improvement

We implement strict monitoring, SOP compliance, regular audits, and process optimization to ensure all services — from facility management to trade operations — meet international quality standards and client expectations.

2. Training & Development

We invest in our workforce with structured training programs tailored to each department. This includes technical skills, safety protocols, customer service, and compliance, ensuring our team is always prepared and professional.

3. Performance Audits

Regular internal audits assess efficiency, compliance, and effectiveness across operations. Audit insights are used to drive improvements, reduce risks, and support strategic decision-making.

4. Client Feedback Mechanism

We actively collect and analyze client feedback through surveys, direct communication, and digital tools. This feedback is used to refine services, address concerns promptly, and enhance overall satisfaction.

Our Commitment

SNC Enterprises is committed to delivering services that are reliable, efficient, and continuously improving — powered by trained teams, audited systems, and client-centered practices.

In Summary:

"We don't just deliver services — we improve them every day. Through quality control, training, and feedback, SNC Enterprises ensures excellence at every level."
